"Although the Correspondent does not seem to expect an additional grant during the current year, it will be applied for, and cannot very well be withheld, after formal recognition is accorded to the IV Form, on the probationary period being completed."

implies that the School may apply for a secondary school's grant during the current year. He does not say whether ~~he is prepared to pay an additional grant during the current year and whether funds are available~~ *in that event funds can be made available in drawing the current year's budget.* If approved, he may be asked U.O. to make the position ~~for the current year~~ clear.

Slip (A)

Letter No. 1860/40-24, dated the 13th June, 1933, from the Inspector of Schools, Coorg & Bangalore.

St. Euphrasia's School referred to in the P.U.C. is a school for Indian Girls. Prior to 1932 it was a Higher Elementary or Lower Secondary School with classes up to III Form. Last year, sanction was conveyed to the opening of a IV Form in the school, which raised ~~the~~ its status ~~of the school~~ to that of a Secondary school. The pupils of the IV Form have to continue their studies in the V Form and sanction is now asked for for the opening of the V Form in the school as a temporary measure for one year up to 31-3-1934. The Inspector does not propose that a grant should be paid in respect of the new Form.

The opening of the V Form, as a temporary measure up to 31st March 1934, may be sanctioned subject to the provisions of Rule 54 of the Madras Educational Rules and on the understanding that no extra grant shall be paid during the current year on that account.

Draft submitted for approval.

CORRESPONDENCE.

This number is not quite so large as one would desire, if a sufficient supply of pupils to the IV Form and eventually to the higher forms is to be ensured. Further, there is no other Higher Elementary or Lower Secondary School for Indian girls in the close neighbourhood of St. Euphrasia's School. On the other hand, this school has been long in existance and the pupils are mostly boarders. It is represented that many of the boarders who would desire to continue their studie are compelled, through absence of High School classes, to terminate their educational careers early. It is, further, anticipated that with the opening of the High School classes the number of boarders who attend the lower forms will increas and a fair number of day-scholars will also be attracted. In view of these considerations and the fact that there is no Indian Girls' High School in that part of the Civil & Military Station, the opening of the IV Form in this school seems to deserve a trial. It is reported that there are 11 pupils ready for admission to the IV Form and three more are awaiting the grant of permission to open the class before they could join. I am also given to understand that many parents are averse to sending their children to High Schools maintained by other religious denominations.

3. The other school is managed by the Sisters of the St. Joseph's Convent. There is another Higher Elementary School within a furlong of Rajamma Thambuchetty Girls' School, the higher classes of which seem to have been latterly combined with those of this school, the matter being under correspondence between the Correspondent and the Sub-Asst.Inspector of Schools, Civil & Military Station, Bangalore. The combined strength of the VI, VII and VIII standards is 36, 24 and 26,respectively, and there are 9 pupils who have applied for admission to the IV Form. Although from the point of view of the strength of the Higher Elementary classes, denominational differences and the religious susceptibilities of the parents there is a good case for the development of this school also into a High School,

I am of opinion that the close proximity of the Goodwill Girls' High School renders the case for this school a little weak.

4. If the Hon'ble the Resident is pleased, I recommend that permission may be accorded under rule 54 of the Madras Educational Rules to the Correspondent of the St. Euphrasia's School to open the IV Form on a probationary basis. The question of the development of Rajamma Thambuchetty Girls' School would be considered next year.

5. As for the financial stability of the school, the management seems to be quite able to undertake additional responsibility. The grant of permission applied for will involve a higher grant to this school. At present, grant has been assessed and is paid in respect of this school as an Elementary School. With the opening of the IV Form, the school will become a Secondary School and teachers with higher educational qualifications as prescribed in Rule 13 of the Madras Educational Rules and on higher scales of pay as directed by the Hon'ble the Resident in Mysore in his No.2431/271-1931, dated 7.4.1932, will have to be employed. Other conditions laid down in Rule 12 of the Madras Educational Rules will have also to be complied with. Although the Correspondent does not seem to expect an additional grant during the current year, it will be applied for, and cannot very well be withheld, after formal recognition is accorded to the IV Form, on the probationary period being completed. The statement given below shows approximately the extra grant that will have to be sanctioned during 1933-34 and 1934-35.
